

# Forest Systems in a Full World

ESPM 290 • 1 unit • J. Keith Gilliss • 103 Mulford • Fall 2015 William Main Seminar  
• Thursday 4-5:30pm • Open to graduates and undergraduates • CCN 30532

The world's forests are no longer seen as remote wilderness frontiers; they are increasingly viewed as global treasures and global commodities shared among developed countries, booming Asian economies, and indigenous residents. This seminar brings leaders from across North America to share innovative perspectives on how to ensure sustainable forests at a global scale.

## **Forest Systems in a Full World** – September 10

Bob Ewing, *Executive Director, Pathwise Institute; Timberlands Strategic Planner, Weyerhaeuser (retired)*

## **Global Ecological Overshoot** – September 17

Mathis Wackernagel, *President, Global Footprint Network*

## **Global Trade in Forest Products** – September 24

Peter Dauvergne, *Professor, University of British Columbia*

## **Role of Policy and Science in California Forestry** – October 1

J. Keith Gilliss, *Dean and Professor, University of California, Berkeley and Chairman of the State Board of Forestry*

## **Forest Carbon Accounting and Global GHG Mitigation Potential** – October 8

William Stewart, *Forestry Specialist, ESPM*

## **Financial Assets, Ecosystem Markets, and the 'New' Forest Products Industry** –

October 15 - Brooks Mendell, *President, Forisk*

## **Influencing the Policy and Science of Global Change** – October 22

John Reilly, *Co-Director, Joint Program on the Science and Policy of Global Change, MIT*

## **Social Psychology of Environmental Behavior** – October 29

Nicole Ardoin, *Professor, Stanford University*

## **Ending Dialogue** – November 12

Bob Ewing

## **Climate Change Mitigation Opportunities in the Forest Sector: Lessons from Canada and the IPCC for California** – December 8

Werner Kurz, *Senior Research Scientist, Natural Resources Canada* (at CalEPA in Sacramento)

## **Environmental Ethics** – postponed until Spring 2016. More details to follow

Jacob Needleman, *Professor, San Francisco State University*
